C_BW4HANA_27 Dumps PDF and Test Engine Exam Questions

NO.38 What are desired outcomes of an SAP BW/4HANA pilot project?

There are 3 correct answers to this question.

- * Identify objects from SAP BI content that will be leveraged in subsequent projects.
- * Identify required changes for the business processes to comply with SAP BW/4HANA standard software.
- * Confirm increased database size using SAP BW/4HANA instead of a common RDBMS.
- * Transfer experience of the pilot project to future projects.
- * Identify customizing and configuration areas to be applied to future projects.

NO.39 Which settings can you define in a data transfer process (DTP) if you load data into a DataStore object (advanced)?

Note: There are 3 correct answers to this question.

- * Extraction mode
- * Error handling

- * Activation handling
- * Data tiering
- * Semantic groups

NO.40 Which tasks are part of the Business Blueprint and Data Model Definition phase in an SAP BW/4HANA project? Note: There are 3 correct Answers to this question.

- * Implement transport routes and layers
- * Specify necessary data conversion
- * Design the data layer concept
- * Monitor batch jobs and data volume
- * Check the availability of data

NO.41 In an SAP HANA smart data integration flowgraph, which transformation options are available? Note:

There are 3 correct Answers to this question.

- * Combine datasets
- * Execute a stored procedure
- * Call an ABAP function module
- * Split datasets
- * Execute an SAP HANA analysis process

NO.42 Which tables belong to the hierarchy for characteristic OCOUNTRY? Note: There are 3 correct answers to this question.

- * /BIC/QCOUNTRY
- * D/BIC/KCOUNTRY
- * /BIC/ICOUNTRY
- * /BIC/PCOUNTRY
- * D/BIC/HCOUNTRY

NO.43 You have created an SAP HANA Calculation View in SAP Web IDE for SAP HANA and want to integrate it into an SAP BW/4HANA CompositeProvider. Which Settings for HANA Consumption in BW; in transaction SPRO can you use in this scenario? Note: There are 2 correct Answers to this question.

- * SAP HANA Repository
- * Hybrid Mode
- * HANA Deployment Infrastructure (HDI)
- * External SAP HANA View

NO.44 For which of the following revenue reporting requirements do you create restricted key figures?

- * Convert revenue into a number without currency.
- * Identify the top five countries by revenue for each month.
- * Determine the average revenue per customer.
- * Compare this year's planned revenue with last year's actual revenue.

NO.45 You want to run a BW query, but you only have partial authorization for the data selection. What happens related to the BW query in this scenario?

- * The BW query starts and only the authorized data is displayed.
- * The BW query starts and shows an error message.
- * The BW query does not start running.
- * The BW query starts and the unauthorized values are 0.

NO.46 Why do you define a custom table as a row store table? Note: There are 2 correct answers to this question.

- * The table will be integrated into a native SAP HANA calculation view.
- * Aggregation and fast search is required for query execution.
- * When the table is accessed, all columns of a single record are processed.
- * The values in the columns are different. Therefore, data compression would NOT have much effect.

NO.47 You open an SAP Analysis for Microsoft Office workbook. On which Design Panel tabs can you verify the filter values?

Note: There are 2 correct Answers to this question.

- * Information
- * Components
- * Analysis
- * Design Rules

NO.48 What are benefits of using an InfoSource in a data flow? Note: There are 2 correct Answers to this question.

- * Connecting sequential transformations in the data flow without storing the data again
- * Reducing the number of data transfer processes (DTP)
- * Storing the extraction delta information of the data source file
- * Reducing the number of transformations for scenarios with many sources and targets

NO.49 You want to model an SAP HANA calculation view by combining the sales orders with the corresponding customer status, which was assigned to the customer when the order was issued. Which join properties do you assign to the required join type?

- * Inner join with Dynamic Join properties
- * Referential join with Temporal Join properties
- * Inner join with Temporal Join properties
- * Referential join with Dynamic Join properties

NO.50 Which development object needs to be built to generate an HDI Container?

- * SQL script procedure
- * Space
- * HDB module
- * Package

NO.51 You create a transformation from a DataSource to a DataStore object (advanced). The DataSource provides an after-image delt a. Which key figure aggregation type do you select?

- * Summation
- * Minimum
- * Maximum
- * Overwrite

NO.52 Which SAP tool do you suggest to create a pixel-precise formatted report?

- * SAP Lumira, discovery edition
- * SAP Analysis for OLAP
- * SAP Crystal Reports for Enterprise
- * SAP Analytics Cloud

NO.53 Which advantages does the SAP Lumira template for generic analysis provide? Note: There are 2 correct answers to this question.

- * You can create a bookmark to a navigation state and link it on any Web page.
- * You can use Visual Basic for Applications to improve the design.
- * You can compare two DataSources in one report.
- * You can use it for any BW query or SAP HANA calculation view.

NO.54 Which object is a target of an SAP BW transformation?

- * InfoObject of type Characteristic
- * CompositeProvider
- * InfoObject of type Key Figure
- * Open ODS view

NO.55 For which scenario do you recommend an InfoSource?

Please choose the correct answer.

- * Allow the creation of delta records.
- * Store intermediate results.
- * Use it as a source for the data transfer process.
- * Connect multiple sources and targets.

NO.56 What must you do first if you need to define help cells for formulas in the cell editor?

- * Define two formulas in a structure.
- * Define two structures in a query.
- * Define two selections in a structure.
- * Reuse a structure in a second query.

NO.57 To achieve an urgent business requirement, you choose the field-based modeling approach, but you also want to leverage a characteristic hierarchy. On which level does LSA++ architecture recommend the appropriate InfoObject to be associated?

- * In the SAP BW Open ODS view
- * In the SAP BW InfoSource
- * In the SAP BW DataStore object (advanced)
- * In the SAP BW CompositeProvider

NO.58 The Database Explorer in the Web IDE for SAP HANA provides a data file import wizard to create a table in SAP HANA from a flat file. What are possible actions after the system suggests the target structure?

Note: There are 3 correct Answers to this question.

- * Map InfoObjects to fields in the target table.
- * Adjust the suggested data type of the target table fields.
- * Define sorting properties for a target table field.
- * Switch the table type between row store and column store.
- * Change the order of the fields in the target table.

NO.59 Which of the following is the core workflow when working with SAP Analytics Cloud?

Please choose the correct answer.

- * Acquire – Prepare – Explore – Visualize – Collaborate
- * Prepare – Explore – Acquire – Visualize – Collaborate
- * Acquire – Prepare – Visualize – Explore – Collaborate
- * Explore – Acquire – Prepare – Visualize – Collaborate

NO.60 When loading master data for a material, you want to look at the new values before they are released for reporting. What could you do using modeling features? Note: There are 2 correct Answers to this question.

- * When you define the data transfer process, select the “Load records with new key only” setting.
- * When you define the attributes of material, select the “Time Dependent” setting.

- * When you define the material characteristic, select the Enhanced Master data update setting.
- * When you define the data transfer process, choose the Set manually setting for Overall status of request.

NO.61 In which sequence does SAP recommen

- * 1. Transformations i-I 2. Reporting requirements

3. Sources of data

4. Storage requirements

- * 1. Reporting requirements

2. Sources of data 3. Transformations

4. Storage requirements

- * 1. Storage requirements

2. Transformations

3. Sources of data

4. Reporting requirements

- * 1. Transformations i-I 2. Sources of data

3. Reporting requirements

4. Storage requirements

for the data model design concept?
