

[Q75-Q93 Free 71200X Questions for Avaya 71200X Exam [Nov-2022]

Free 71200X Questions for Avaya 71200X Exam [Nov-2022 Validate your 71200X Exam Preparation with 71200X Practice Test (Online & Offline)]

Difficulty in Attempting The Avaya Aura Core Components Integration (71200X)

There are many materials available on the website, participants can refer them and accordingly select which is best and as per the course contents. They should include both ebooks and videos in their learning because that would be helping them a lot to get a clear concept about the 71200X Exam. Apart from all the study materials what they having, they should include **AVAYA 71200x practice exam** and **AVAYA 71200x practice exams** provided by the TopExamCollection.

The TopExamCollection expert team recommend all the participants who so ever prepare for this certification should prepare notes on the course contents which have been explained above. This would be helping participants to revise quickly before going into the exam.

Apart from it, TopExamCollection is providing 100% money-back guarantee if any of the participants got failed in their first attempt, which provides confidence to participants to go ahead and start preparing for 72200X Exam.

Understanding functional and technical aspects of The Avaya Aura Core Components Integration (71200X) Avaya Team Engagement Avaya Team Engagement Core Solutions Integration

The following will be discussed in **AVAYA 71200x exam dumps**:

- Integrate Communication Manager and Avaya Aura® Media Server into the Core.- Perform the Avaya Aura®

Communication Manager implementation for integrating the core products for the Avaya Enterprise Team Engagement Solutions- Perform advanced configuration steps to increase resiliency for each of the core products within the Avaya Aura® Team Engagement Solutions- Verify that the Core is functioning correctly **Q75**. Which link configuration is used to connect an Avaya Aura Media Server (AAMS) with Avaya Aura Communication Manager (CM)?

- * An H.248 Link
- * A Signaling Group
- * A SIP Entity link
- * A Trunk Group

Q76. Which Avaya product provides Centralized SIP Routing across the network?

- * Avaya Aura Session Manager (SM)
- * Avaya Aura System Manager (SMGR)
- * Avaya Aura Communication Manager (CM)
- * Avaya Aura Media Server (AAMS)

Q77. How do you run the sip tracing tool In Avaya Aura Session Manager?

- * Run traceSIP from the command line of Avaya Aura Communication Manager (CM).
- * Run traceSM from the command line of Avaya Aura System Manager (SMGR).
- * Run traceSM from the SMI of Avaya Aura Communication Manager (CM).
- * Run traceSM from the command line of Avaya Aura Session Manager (SM).

Q78. In Avaya Aura 7.x, where are the listening ports defined to allow Avaya Aura Session Manager (SM) to listen for User Agent (UA) registrations?

- * Communication Profile
- * SM Firewall
- * SIP Entity
- * SM Administration

Q81. Which three components must be administered during the implementation of a Branch Session Manager? (Choose three.)

- * Branch Session Manager Instance
- * Entity Link between Branch Session Manager and Survivable CM
- * SIP Entity
- * Entity Link between Branch Session Manager and Main CM
- * SIP Adaptation

Q82. Which three elements must be configured In Avaya Aura Communication Manager to build an H.323 Trunk? (Choose three.)

- * an ISDN Trunk Group
- * an E1/T1 Trunk Group
- * an H.323 Signaling Group
- * a SIP Signaling Group, changing it to H.323 type afterwards
- * a Name/IP-Address entry to the Node-Names IP table

Q83. Which communication Manager Reset level takes less than 10 seconds, and preserves stable calls as well Error and Alarm logs?

- * Reset System 4
- * Reset System 3
- * Reset System 2
- * Reset System 1

Q84. What are three advantages of Avaya Aura Media Server (AAMS)? (Choose three.)

- * Additional Codec support
- * High channel density
- * Direct ISDN-PRI Trunk connectivity
- * No playback announcement limits
- * Inbuilt DHCP Server functionality

Q85. Which three configuration points are necessary before you can build a Network Routing Policy? (Choose three.)

- * Location
- * User Profile
- * Avaya Aura Communication Manager (CM) Profile
- * Domain
- * SIP Entity

Introduction to Network Routing Policy

Network Routing Policy consists of several routing applications like "Domains", "Locations", "SIP Entities", etc.

The recommended order to use the routing applications (that means the overall routing workflow) to configure your network is:

- Step 1: Create "Domains" of type SIP (other routing applications are referring domains of type SIP).
- Step 2: Create "Locations"
- Step 3: Create "Adaptations"
- Step 4: Create "SIP Entities"

- SIP Entities that are used as "Outbound Proxies" e.g. a certain "Gateway" or "SIP Trunk"
- Create all "other SIP Entities" (Session Manager, CM, SIP/PSTN Gateways, SIP Trunks)
- Assign the appropriate "Locations", "Adaptations" and "Outbound Proxies"

Q86. From within Avaya Aura System Manager (5MGR), which task can you perform from the Avaya Aura Session Manager (SM) Dashboard?

- * Select the Primary and Secondary SM for each SIP user.
- * Obtain the status and health summary of each administered SM.
- * Create new users each administered SM.
- * Synchronize data from each SM with the Avaya Aura Communication Manager (CM).

Q87. When a simple SIP telephone without CM Features registers to the Avaya Aura Core, which IP address will it register to?

- * Avaya Aura System Manager IP Address

- * Avaya Aura Session Manager Management IP Address
- * Avaya Aura Session Manager SMI00 IP Address
- * Avaya Aura Communication Manager IP Address

Q88. In Avaya Aura System Manager (SMGR), the menu option `Services/Events/Alarms`; is used to perform which three functions? (Choose three.)

- * Change the status of an alarm.
- * Export alarms.
- * View an alarm.
- * Get the dashboard information of Avaya Aura Session Manager.
- * Add new custom alarms.

Q89. Which Avaya Aura Communication Manager (CM) Reset Level typically takes less than 10 seconds, and preserves stable calls as well as Error and Alarm logs?

- * Reset System 4
- * Reset System 3
- * Reset System 2
- * Reset System 1

Q90. Which Avaya Aura Communication Manager (CM) feature deals with the routing of Public Calls?

- * Uniform Dial Plan
- * Automatic Alternate Routing (AAR)
- * Automatic Route Selection (ARS)
- * Dial Plan Parameters

Q91. Under which circumstance would an Avaya Aura Session Manager (SM) alarm be automatically cleared?

- * After 24 hours of the alarm's first report occurrence
- * When the alarm condition has been resolved
- * If an automatic alarm clearing rule has been specified
- * During the automatic nightly Avaya Aura System Manager (SMGR) alarm clearing

Q92. Which two servers are supported in the Avaya Aura 8.x offer? (Choose two.)

- * S8300D
- * S8800
- * S8510

- * HP ProLiant G8
- * S8300E

Q93. What are these of the advertisement of the Avaya Aura Media server? (Choose two.)

- * Additional Codec support
- * Direct ISDN-PRI Trunk connectivity
- * High channel density
- * No playback announcement limits
- * Inbuilt DHCP Server functionality

71200X - Avaya Aura® Core Components Integration exam is a general requirement for earning the relevant ACIS-7120 - Avaya Aura® Core Components certification. It validates the individual's expertise in key elements of the Avaya Aura Team Engagement.
