

## New SAP C-TS422-2020 Dumps & Questions Updated on 2022 [Q36-Q55]

New SAP C-TS422-2020 Dumps & Questions Updated on 2022  
Dumps to Pass your C-TS422-2020 Exam with 100% Real Questions and Answers

**SAP S/4HANA Production Planning and Manufacturing Certification Exam Topics:**

Topic Areas  
Topic Details, Courses, Books  
Weighting  
Master Data in SAP S/4HANA  
Identify and explain production relevant master data, including, but not limited to: bill of material, routing and production version. TS421, TS422 (SAP S/4HANA 2020)

OR

S4210 (SAP S/4HANA 2020) > 12%  
Production Orders in SAP S/4HANA  
Determine BOM item category, describe order status management and set user statuses, configure availability check for components, trigger routing selection, set up an order type, apply material staging and confirmation. TS421, TS422 (SAP S/4HANA 2020)

OR

S4225 (SAP S/4HANA 2020) > 12%  
Material Requirements Planning in SAP S/4HANA  
Select and apply planning strategies, use the planning table, characterize long-term planning and master production scheduling, outline MRP basics and steps of MRP, and describe lot size procedures. TS421, TS422 (SAP S/4HANA 2020)

OR

S4220 (SAP S/4HANA 2020)8% - 12%Demand Management in SAP S/4HANAExplain and compare the different production methods in make-to-order, make-to-stock, and assembly planning. TS421, TS422 (SAP S/4HANA 2020)

OR

S4220 (SAP S/4HANA 2020)< 8%Introduction to SAP S/4HANA Supply Chain PlanningOutline both motivation and background of SAP S/4HANA, describe its main components, the lines of business, and the SAP User Experience strategy. TS421, TS422 (SAP S/4HANA 2020)

OR

S4200 (SAP S/4HANA 2020)< 8%Lean Manufacturing in SAP S/4HANAIdentify repetitive manufacturing specific master data, explain line load planning and confirmation, outline Kanban master data and Kanban processes. TS421, TS422 (SAP S/4HANA 2020)

OR

S4200 (SAP S/4HANA 2020)8% - 12%Process Orders in SAP S/4HANACharacterize process order elements and process order processing, determine master data objects for process orders, identify features for Good Manufacturing Practices (GMP). TS421, TS422 (SAP S/4HANA 2020)

OR

S4200 (SAP S/4HANA 2020)< 8%

**NO.36** What are main innovations in manufacturing in SAP S/4HANA? There are 3 correct answers to this question.

- \* Monitor Production Orders Fiori app
- \* Lock-free inventory movements
- \* Flow manufacturing
- \* Material Coverage Fiori app
- \* Rough-cut capacity planning

**NO.37** You want to insert an operation at a certain time on a work center. The planning direction is forward. The desired dispatching time coincides with an operation that has previously been dispatched. How does the insertion take place?

- \* The new operation is inserted at the desired time; the previously dispatched operation is moved forward.
- \* The new operation is inserted at the desired time the previously dispatched operation is moved backward.
- \* The previously dispatched operation stays as is the new operation is inserted after the dispatched operation.
- \* The previously dispatched operation stays assist the new operation is inserted before the dispatched operation.

**NO.38** Which actions does the system perform by default when you save a confirmation for a finished product in repetitive manufacturing? There are 3 correct answers to this question.

- \* Archiving of documents for assembly scrap
- \* Reduction of associated capacity requirements
- \* Posting of goods receipt for the product

- \* Posting of production costs to the production cost collector
- \* Material staging for next order in sequence

**NO.39** In which data objects do you maintain the production line as the work center for repetitive manufacturing?

Note: There are 2 correct answers to this question.

- \* Production version
- \* Production cost collector
- \* Routing
- \* Repetitive manufacturing profile

**NO.40** You are working with planning strategy 40 (Planning-with-final assembly). When does consumption of planned independent requirements take place?

- \* When you create a sales order
- \* When you deliver a sales order
- \* When the MRP results are saved
- \* When you create a planned order

**NO.41** You are creating a production order manually. What activities are involved in this process?

There are 3 correct answers to this question.

- \* Planning selection
- \* Order type determination
- \* Actual cost calculation
- \* Capacity requirements determination
- \* Master data selection

**NO.42** Where can you find the latest in version of the Simplification List for SAP S/4HANA?

Please choose the correct answer.

- \* SAP Solution Manager 7.2
- \* SAP Help Portal
- \* SAP Support Portal
- \* SAP Best Practices Explorer

**NO.43** What is the purpose of collective orders?

- \* To post production costs on a cost collector instead of the production order
- \* To combine order management of co-products and by-products with the main product
- \* To post any component withdrawals single back flush with order confirmation
- \* To manage production orders for an entire finished product on multiple levels

**NO.44** What new technology is used in SAP S/4HANA Embedded Analytics? Please choose the correct answer.

- \* Multidimensional Reporting client (MDRC)
- \* Smart Business Cockpit
- \* HANA Live
- \* ABAP Managed Core Data Services (CDS)

**NO.45** A planner wants to interactively resolve an overload situation on a resource using advanced planning tools without any automatic rescheduling activity by the system.

Which combination of settings for resource and detailed scheduling strategy are required to receive related alerts?

- \* Infinite resource and infinite strategy
- \* Finite resource and finite strategy
- \* Finite resource and infinite strategy
- \* Infinite resource and finite strategy

**NO.46** For a production version to be valid and consistent what requirements must be fulfilled? Note: There are 3 correct answers to this question.

- \* The lot size range must be within the lot-size range of the assigned routing.
- \* The assigned routing must be a rate routing.
- \* The deletion flag must NOT be set for the bill of materials (BOM) or the routing.
- \* The assigned routing and bill of materials (BOM) must be valid in the entire validity period.
- \* The assigned routing must NOT have alternative sequences.

**NO.47** You want to integrate an existing planned order into Advanced Production Planning. Which report do you use? Please choose the correct answer.

- \* /SAPAPO/UPD\_LOC\_SP\_PL
- \* /SAPAPO/CURTO\_CREATE
- \* /SAPAPO/PPDS\_DELTA\_ORD\_TRANS
- \* /SAPAPO/CREATE\_LOCATION

**NO.48** Your company produces a finished good based on a forecast and expects it to be in stock when customers order it. If customers order more than the forecasted quantity, the production quantity should be increased to try to meet the extra demand.

Which planning strategy do you use?

- \* Make-to-stock production (10)
- \* Planning without final assembly (50)
- \* Make-to-order production (20)
- \* Planning with final assembly (40)

**NO.49** Your project team decides to use a make-to-order planning strategy for a strategic material in discrete manufacturing. What is the impact of this decision? Note: There are 3 correct answers to this question.

- \* Sales order-specific planning run is required.
- \* Sales order-specific stock is created
- \* Net requirements calculation is sales order-specific.
- \* Storage location MRP areas are required.
- \* Production orders are created with sales order reference.

**NO.50** Which time elements are part of a routing operation? Note: There are 3 correct answers to this question.

- \* Queue time
- \* Float before production
- \* Pick/pack time
- \* Wait time
- \* Move time

**NO.51** For which planning-relevant data objects do you set just one indicator to include them in PP/DS?

There are 2 correct answers to this question.

- \* Plant
- \* Material
- \* Work center

\* Production version

**NO.52** What are properties of MRP Live? There are 2 correct answers to this question.

- \* It uses the same BAdis as classic MRP
- \* Data is read sequentially from the database tables
- \* The code is written in SQL Script
- \* It is executed on the database server

**NO.53** What capabilities does SAP S/4HANA embedded analytics provide? There are 2 correct answers to this question.

- \* Comparison of current data with historical data to identify trends
- \* Automatic update of story boards
- \* Strategic analysis
- \* Real time decision support

**NO.54** What does a line hierarchy in repetitive manufacturing represent?

- \* A production line with a parallel sequence in the routing
- \* A production line with an alternative sequence in the routing
- \* A production line with prioritized alternative work centers
- \* A production line with more than one work center

**NO.55** Advanced Planning is delivered with standard out-of-the-box order and resource evaluations. Which evaluations are available? There are 2 correct answers to this question.

- \* Order list
- \* Production list
- \* Resource utilization
- \* Resource overview
