31861X Braindumps Real Exam Updated on Mar 25, 2023 with 61 Questions

NEW QUESTION 21

A customer wants to ensure that their remote workers who access the Avaya core are authenticated by the Avaya Session Border Controller for Enterprise (SBCE).

What is the recommended location for the SBCE?

- * On the same virtual instance with Session Manager
- * In the Internet Service Provider network
- * Behind the firewall in the customers enterprise
- * In the customer's DMZ

NEW QUESTION 22

One of the requirements of a proposal you are working on, is the ability to query an Active Directory database for contact Information from the customer's Avaya 96XX SIP Phones.

To support this functionality, which component must be included in your solution?

- * Avaya Aura Devices Services
- * Communication Manager

- * A DHCP server
- * System Manager

NEW QUESTION 23

For an Avaya Aura Communication Manager (CM) 7 Duplex Server hardware solution, what are two capabilities/requirements? (Choose two.)

- * Utility Server and Services Access Link (SAL) are required to be installed with both CM instances.
- * The duplex servers provide protection for both hardware and software server faults.
- * The duplex servers must run in an active-active mode for instantaneous failover.
- * Identical Servers are required.

NEW QUESTION 24

While working on a proposal that includes Avaya IX messaging you are comparing required features and licensing.

Which Avaya IX Messaging feature requires an additional license?

- * Text to Speech (TTS)
- * Single sign on (SSO)
- * Sync with Office 365 & Google emails
- * Additional non-Avaya PBX integrations

NEW QUESTION 25

You are designing an addition to a customer's existing Avaya Aura system. The addition will include 575 IP sets, of which 200 will also use Avaya Equinox for the Desktop, 175 will use Desktop P2P Video, and 25 of them will also need Extension to Cellular (EC500). There are 75 other new users who will use Avaya Equinox for iOS as their only UC Client or endpoint. The customer does not want a la carte licensing for applications not covered by Core Suite, and will purchase other Avaya Aura Suites as required.

How many Core Suite licenses are needed for the addition?

- * 675
- * 650
- * 625
- * 575

NEW QUESTION 26

A customer has Avaya Aura components at release 6.3 and they would like to use the Avaya IX Workplace clients to take advantage of Avaya Aura Device Services (AADS) in their deployment.

What is the minimum release of Avaya Aura Session Manager that will support AADS?

- * 6.3
- * 7.0
- * 7.0.1.2
- * 7.1

NEW QUESTION 27

A customer has a branch location with the following requirements:

- * 24 H.323 Endpoints
- * 30 SIP Endpoints
- * 1 DS-1 for PSTN trunking
- * 15 Analog Ports
- * Survivability for all endpoints in event of WAN fail

What is the least cost gateway solution that meets all of these requirements?

- * G450 Media Gateway with S8300
- * G450 Media Gateway
- * G430 Media Gateway
- * G430 Media Gateway with S8300

NEW QUESTION 28

If a customer has an Avaya Aura 7.0 and shuffling is turned on within Communication Manager, which statement describes the media processing resource (DSP) requirements for a two-party call originated by a SIP station and terminated by an .H323 IP Trunk being recorded?

- * Multi-party (i.e. 3-party or greater) calls cannot shuffle, and require media-processing channels for the entire call.
- * SIP-SIP two-calls will use SIP Direct Media, so no media-processing channels are required for this call.
- * This call cannot shuffle, and one media-processing channel is required for the entire call.
- * This call will shuffle after initial call set-up; i.e., one media-processing (DSP) channel is required for the first 20 seconds of the call, for each party.

NEW QUESTION 29

You are creating a new Communication Manager design. You have included Avaya provided servers with G450 gateways. The solution requires 200 H.323 telephones. Trunk service from the PSTN will be IP trunks. Shuffling will be enabled. They have also requested call recording via Device Media Call Control (DMCC) application programming interface.

To record all IP endpoints simultaneously, how many DSP resources are required?

- * 800 DSP resources
- * 600 DSP resources
- * 400 DSP resources
- * 200 DSP resources

NEW QUESTION 30

A technician is adding 1100 users to an Avaya Aura solution. There is only bandwidth for 30kbps calls per user.

Which audio codec will provide the highest fidelity that the network will support?

- * G.722
- * H.264
- * G.711
- * G.729

NEW QUESTION 31

How many endpoints will directly register/connect to Communication Manager?

- * 375
- * 400
- * 625
- * 1025

NEW QUESTION 32

You are working on a design that includes Avaya Aura Presence Services.

Which statement regarding the Presences Services deployment is true?

- * It always requires one or more dedicated (closed) Avaya Breeze instances.
- * It does not require dedicated (closed) Avaya Breeze instances.
- * It requires one or more general purpose (open) Avaya Breeze instances.
- * It can only be installed on one dedicated (closed) Avaya Breeze instance.

NEW QUESTION 33

A customer Is adding a branch location, and they have an Avaya Aura core at their existing location. It is a requirement that the equipment at the new branch location continues to provide service during WAN failures. This includes the ability for callers to leave a voicemail message by having the call route from the new location over PRI to the core location where the voicemail resides.

Assuming both locations have PRI and G450s, which Item needs to be included at the new location?

- * Standard Local Survivability
- * Survivable Remote server
- * Survivable Core server
- * Session Manager server

NEW QUESTION 34

The account team is concerned about limitations associated with analog licenses that you have included in your solution design.

Which two characteristics of analog licenses would you share with the account team? (Choose two.)

- * It is possible to uplift an analog license to a Core suite license.
- * Analog users will get all benefits of a Core license user; the only difference Is the device.
- * Analog license users can coexist in the same Communication Manager with Mobility and Collaboration users.
- * The percentage of analog licenses, within a solution, cannot exceed 60% of the total number of licenses.

NEW QUESTION 35

A customer wants to prevent additional calls from being established, and to preserve the quality active calls when the capacity limit on the WAN link is reached. The branch inter-office communication use rate is one trunk for every 20 users over the customer's star topology WAN. 600k of the WAN bandwidth is dedicated to voice.

Assuming G.729 (30k bandwidth per call) is used, which Call Admission Control (CAC) limit will meet the customer s requirement?

- * Set the CAC limit to 10 incoming calls and 10 outgoing inter-branch calls at each branch.
- * Set the CAC limit to 200 intra-branch calls globally in the WAN network.

- * Set the CAC limit to 2 Mbps just for voice traffic at the headquarters main office WAN connection.
- * Set the CAC limit to 20 inter-branch calls for each branch location.

NEW QUESTION 36

The Avaya Session Border Controller for Enterprise (SBCE) uses Standard and Advanced licenses.

In addition to Remote Worker functionality, what are two additional features that require a standard license and an advanced license? (Choose two.)

- * Media forking (SIPREC)
- * Transport Layer Security (TLS) and Secure Real-time Transport Protocol (SRTP) encryption
- * High availability
- * Network Address Translation (NAT) traversal
