Download Exam PCCSE Practice Test Questions with 100% Verified Answers Share Latest PCCSE Test Practice Test Questions, Exam Dumps

The PCCSE certification exam is ideal for cloud security professionals who want to enhance their skills and knowledge in cloud security, and for those who wish to demonstrate their expertise in securing cloud environments. Prisma Certified Cloud Security Engineer certification exam is designed to assess an individual's ability to design, implement, and manage cloud security solutions using the Prisma suite of products. The PCCSE exam is a rigorous certification that requires candidates to have a deep understanding of cloud security concepts, best practices, and emerging technologies. Successful completion of the PCCSE certification exam demonstrates to employers that an individual has a strong understanding of cloud security and is capable of securing cloud environments using the latest technologies and best practices.

QUESTION 14

A Prisma Cloud administrator is tasked with pulling a report via API The Prisma Cloud tenant is located on app2.pnsmacloudjo.
What is the correct API endpoint?

- * https //api2-prismacloud io
- * https://api.prismacloud.io
- * https://api2eu-prismacloud.io
- * https://api pnsmacloud.cn

QUESTION 15

What is the order of steps in a Jenkins pipeline scan?

(Drag the steps into the correct order of occurrence, from the first step to the last.)

Answer Area

Unordered Options	Ordered Options
Scan Image	
Publish Scan Details	
Build Image	
Commit to Registry	

Answer Area

Unordered Options	Ordered Options
Scan Image	Scan Image
Publish Scan Details	Publish Scan Details
Build Image	Build Image
Commit to Registry	Commit to Registry

QUESTION 16

Which options show the steps are required to upgrade Console when using projects?

- * Upgrade Defender

Upgrade Central Console

Upgrade Supervisor Consoles

- * Upgrade all Supervisors Consoles

Upgrade Central Console
* Upgrade Central Console

Upgrade all Supervisor Consoles
* Upgrade Central Console

Upgrade Central Console Defenders

QUESTION 17

Match the correct scanning mode for each given operation.

(Select your answer from the pull-down list. Answers may be used more than once or not at all.)

Answer Area

Create SNS Topic Triggers	Drag answer here	No data security scan
Select an S3 bucket	Drag answer here	Forward Scan only
Select an S3 bucket with existing files	Drag answer here	Forward or Backward Scan
Link an S3 logging to CloudTrail	Drag answer here	Backward Scan only

Answer Area

Create SNS Topic Triggers	No data security scan	No data security scan
Select an S3 bucket	Forward Scan only	Forward Scan only
Select an S3 bucket with existing files	Forward or Backward Scan	Forward or Backward Scan
Link an S3 logging to CloudTrail	Backward Scan only	Backward Scan only

QUESTION 18

You wish to create a custom policy with build and run subtypes. Match the query types for each example.

(Select your answer from the pull-down list. Answers may be used more than once or not at all.)

Answer Area

config where cloud.type = 'aws'	Drag answer here	Run
\$.resource[*].aws_s3 bucket exist	Drag answer here	Build
RQL type	Drag answer here	
.JSON query type	Drag answer here	

Answer Area

config where cloud.type = 'aws'	Run	Run
\$.resource[*].aws_s3 bucket exist	Run	Build
RQL type	Build	
.JSON query type	Build	

Answer Area

config where cloud.type = 'aws'	Run	Run
\$.resource[*].aws_s3 bucket exist.	Run	Build
RQL type	Build	
JSON query type	Build	

QUESTION 19

On which cloud service providers can you receive new API release information for Prisma Cloud?

- * AWS, Azure, GCP, Oracle, Alibaba
- * AWS, Azure, GCP, IBM
- * AWS, Azure, GCP, IBM, Alibaba
- * AWS, Azure, GCP, Oracle, IBM

QUESTION 20

Which port should a security team use to pull data from Console's API?

- * 8084
- * 8083
- * 25
- * 53

QUESTION 21

What will happen when a Prisma Cloud Administrator has configured agentless scanning in an environment that also has Host and Container Defenders deployed?

- * Agentless scans do not conflict with Defender scans, so both will run.
- * Both agentless and Defender scans will be disabled and an error message will be received.
- * Agentless scan will automatically be disabled, so Defender scans are the only scans occurring.
- * Defender scans will automatically be disabled, so agentless scans are the only scans occurring.

QUESTION 22

Which two processes ensure that builds can function after a Console upgrade? (Choose two)

- * updating any build environments that have twistcli included to use the latest version
- * configuring build pipelines to download twistcli at the start of each build
- * creating a new policy that allows older versions of twistcli to connect the Console
- * allowing Jenkins to automatically update the plugin

QUESTION 23

Which alerts are fixed by enablement of automated remediation?

- * All applicable open alerts regardless of when they were generated, with alert status updated to `resolved`;
- * All applicable open alerts regardless of when they were generated, with alert status updated to `dismissed`;
- * Only the open alerts that were generated before the enablement of remediation, with alert status updated to `resolved`;
- * Only the open alerts that were generated after the enablement of remediation, with alert status updated to `resolved`;

QUESTION 24

What is the correct method for ensuring key-sensitive data related to SSNs and credit card numbers cannot be viewed in Dashboard > Data view during investigations?

- * Go to Settings > Data > Data Patterns, search for SSN Pattern, edit it, and modify the proximity keywords.
- * Go to Policies > Data > Clone > Modify Objects containing Financial Information publicly exposed and change the file exposure to Private.
- * Go to Settings > Data > Snippet Masking and select Full Mask.
- * Go to Settings > Cloud Accounts > Edit Cloud Account > Assign Account Group and select a group with limited permissions.

QUESTION 25

A customer has a requirement to terminate any Container from image `topSecret:latest` when a process named `ransomWare` is executed.

How should the administrator configure Prisma Cloud Compute to satisfy this requirement?

- * set the Container model to manual relearn and set the default runtime rule to block for process protection.
- * set the Container model to relearn and set the default runtime rule to prevent for process protection.
- * add a new runtime policy targeted at a specific Container name, add `ransomWare` process into the denied process list, and set the action to `prevent`;
- * choose `copy` into rule; for the Container, add a `ransomWare` process into the denied process list, and set the action to `block`;

QUESTION 26

The compliance team needs to associate Prisma Cloud policies with compliance frameworks. Which option should the team select to perform this task?

- * Compliance
- * Policies
- * Alert Rules
- * Custom Compliance

QUESTION 27

What are the two ways to scope a CI policy for image scanning? (Choose two.)

- * container name
- * image name
- * hostname
- * image labels

QUESTION 28

Which step is included when configuring Kubernetes to use Prisma Cloud Compute as an admission controller?

- * copy the admission controller configuration from the Console and apply it to Kubernetes
- * enable Kubernetes auditing from the Defend > Access > Kubernetes page in the Console
- * copy the Console address and set the config map for the default namespace
- * create a new namespace in Kubernetes called admission-controller.

QUESTION 29

Which `kind` of Kubernetes object is configured to ensure that Defender is acting as the admission controller?

- * `MutatingWebhookConfiguration`
- * `DestinationRules`
- * `ValidatingWebhookConfiguration`
- * `PodSecurityPolicies`
