# [Q118-Q133 DEA-7TT2 Practice Test Give You First Time Success with 100% Money Back Guarantee!

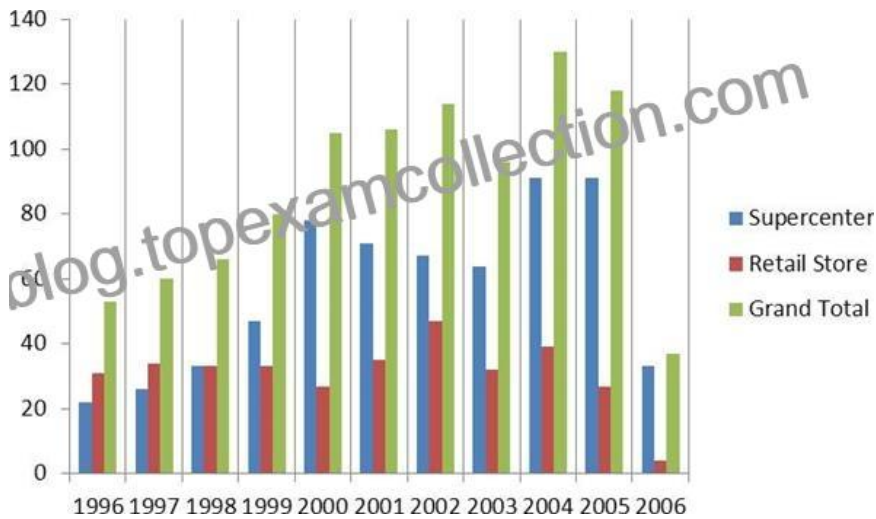

DEA-7TT2 Practice Test Give You First Time Success with 100% Money Back Guarantee! All Obstacles During DEA-7TT2 Exam Preparation with DEA-7TT2 Real Test Questions NEW QUESTION 118

When creating a presentation for a technical audience, what is the main objective?

Response:
* Show that you met the project goals
* Show how you met the project goals
* Show if the model will meet the SLA
* Show the technique to be used in the production environment

NEW QUESTION 119

Based on the graphic, what should be done to begin addressing chart junk?

Response:
* Remove the vertical gridlines
* Remove the legend
* Reduce the font size in the axis

NEW QUESTION 120

What are challenges presented by Big Data?

Response:
* New technologies, tools and regulatory rules only
* New technologies, tools, business processes, and regulatory rules
* New technologies, and tools only
* New technologies, tools, and business processes only

NEW QUESTION 121

Which term is used to describe separating a database into separate parts that can be processed in parallel?

Response:
* Deduplication
* Replication
* Sharding
* Reconstituting

NEW QUESTION 122

Refer to the exhibit.

Attribute	Info-Gain
Age	0.0310
Income	0.0100
Gender	0.0034
Credit Score	0.0456

You are building a decision tree. In this exhibit, four variables are listed with their respective values of info-gain. Based on this information, on which attribute would you expect the next split to be in the decision tree?

Response:
* Credit Score
* Age
* Income
* Gender

NEW QUESTION 123

Which word or phrase completes the statement? Business Intelligence is to monitoring trends as Data Science is to _____ trends.

Response:
* Predicting
* Discarding
* Driving
* Optimizing

NEW QUESTION 124

What does a leaf node represent in a decision tree?

Response:
* Root of the decision tree
* Decision point on a variable
* Outcome of a test on a variable
* Assigned class label

NEW QUESTION 125

Consider a database with 4 transactions:

Transaction 1: {cheese, bread, milk}

Transaction 2: {soda, bread, milk}

Transaction 3: {cheese, bread}

Transaction 4: {cheese, soda, juice}

You decide to run the association rules algorithm where minimum support is 50%. Which rule has a confidence at least 50%?

Response:
* {cheese} => {bread}
* {juice} => {cheese}
* {milk} => {soda}
* {soda} => {milk}

NEW QUESTION 126

You have numeric data for more than 500 observations. You are interested in identifying linear relationships among these numeric variables. Which R function should you employ to get the best visualization?

Response:
* rug()
* lm()
* pairs()
* plot(density())

NEW QUESTION 127

How is HDFS defined?

Response:
* Large “web table” capable of holding millions of rows and millions of columns
* Row-column oriented datastore supporting redundancy and high availability
* Reliable, redundant distributed file system
* Reliable file system stored on a single extensible storage platform

NEW QUESTION 128

Which word or phrase completes the statement? A spreadsheet is to a data island as a centralized database for reporting is to a _____?

Response:
* Data Warehouse
* Data Repository
* Analytic Sandbox
* Data Mart

NEW QUESTION 129

What is the primary function of the NameNode in Hadoop?

Response:
* Keeps track of which MapReduce jobs have been assigned to each TaskTracker
* Monitors the state of each JobTracker node and signals an event if unavailable
* Runs some number of mapping tasks against its assigned data
* Acts as a regulator/resolver among clients and DataNodes

NEW QUESTION 130

When would you use a Wilcoxson Rank Sum test?

Response:
* When you cannot make an assumption about the distribution of the populations
* When the data can easily be sorted

* When the populations represent the sums of other values
* When the data cannot easily be sorted

NEW QUESTION 131

What is a core deliverable at the end of the analytic project?

Response:
* An implemented database design
* A whitepaper describing the project and the implementation
* A presentation for project sponsors
* The training materials

NEW QUESTION 132

Consider these itemsets:

(hat, scarf, coat)

(hat, scarf, coat, gloves)

(hat, scarf, gloves)

(hat, gloves)

(scarf, coat, gloves)

What is the confidence of the rule (hat, scarf) => gloves?

Response:
* 66%
* 40%
* 50%
* 60%

NEW QUESTION 133

What are considerations in a data science and Big Data analytics project?

Response:
* Ignoring executive stakeholders and business users
* Applying the latest technologies to demonstrate technical skills
* Analysis flexibility and decision making
* Building data silos and bypassing data privacy rules
